

Professional Support: Finance / Bookkeeping

Wildlife Rehabilitation Ireland would be glad to hear from individuals with relevant experience in bookkeeping, finance administration, and practical financial record-keeping who may be able to support the organisation's current work.

This support is intended to relate primarily to day-to-day bookkeeping and finance administration. It may include help with maintaining records, processing financial information, supporting reporting requirements, and helping ensure continuity in practical finance administration.

Support may be voluntary, reduced-rate, or paid, depending on the nature of the role and available funding.

If you would like to express interest, please email chairperson@wri.ie and include:

- your name and location
- a short summary of your relevant finance / bookkeeping experience
- whether you are offering voluntary, reduced-rate, or paid support
- your approximate availability
- any additional information you feel may be relevant
